from the Supt. of Rev. Survey  
in Mysore -

Apart from the subject of  
printing the forms, the Supt.  
of Rev. Survey is of the opinion  
that the real remedy lies in  
calculating the Stationery  
Allowance of Shambhoj  
on the village instead of  
on the entire charge  
consisting of two or more  
villages.

The aggregate cost of  
good paper required

time has not yet come to insist on printed forms being used all through the Province.

5. The alternative courses open seem to be

(1) Leave things as they are merely enhancing the Stationery allowance.

The disadvantage in this course is that we shall be deprived of all the benefits that may be derived from neat & uniform forms being employed <sup>we</sup> but shall not have the trouble of supplying the printed forms all over the Province. Anywa the Sanbogs ~~shall~~ <sup>will</sup> ~~paid~~ <sup>be</sup> an allowance for ink + pens + a small supply of paper required for reports.

2. Print forms in the Govt Press and supply to the Sanbogs gratis giving them a lower allowance than at present for pen ink &c on the whole, this

3  
Cannot be dearer  
than at present.

(6)

But the work of  
supplying all the  
Sanbogs, checking  
quantities required  
etc is a serious  
item. Some Sanbogs  
may spoil forms  
and unless we  
are willing to waste  
a great quantity,  
they sh<sup>d</sup> be made to  
pay for further  
quantities required.

6. The work may be sim-  
plified by our printing  
forms and keeping them  
in the Taluk towns for  
sale at a rate equivalent  
to Cost price. In this case,  
the Sanbogs sh<sup>d</sup> get the usual  
Stationery allowance with  
some addition for the  
increased elaborateness  
of the new forms.

7. It is doubtful whether  
the Government Press  
would be able to turn out  
all the additional work.  
In this case, we may  
call for tenders prescri-

proposed adding 1 Rupee  
per village more than  
the present stationary  
Allowance, which according  
to the statement fur-  
nished by the Sur: Genl:  
amounted in 1892 to  
Rs. 27,310. The statement  
does not include the  
Taluk of the Pakhal Taluq  
whereof has been since  
fixed in the Bangalore  
Kolar & Mysore Districts.

That the Sanbogs should  
be given some additional  
Stationary allowance for  
writing up the new acts  
is conceded in Procs  
Camp no. 940-43 d. 29.12.91.  
The Superintendent of Reve-  
nue Survey in his letter

No. 732 recommends that  
50 A.C. may be added to  
the present stationary al-  
lowance, which would mean  
a charge annually of Rs  
13000 & odd for the Janks  
bribe potgi had been settled  
by the date of his letter (5 Feb 92).

It may increase by ~~3000~~  
3000 ~~R. 400~~ or so if all the / H. 1000.  
Janks are included.

3. The Chief Secretary  
in his memo. recommends  
a grant of 1R. a village.

Either course may be  
adopted so far as remun-  
eration for the past years  
is concerned.

~~Let~~ Re. be settled  
respectively.

4. What has to be done  
in future remains to  
be settled. Both Mr. Chan-  
chala Rao and Mr. Thambra  
Chettyar have recorded  
opinions and they seem to  
think that it is better to  
supply printed forms.  
Mr. Anand Rao in his  
memo. thinks that this -

being the size and quality  
of the paper and purchase  
forms every year or pe-  
riod of 2 or 3 years, and  
sell them or distribute  
them gratis according to  
the plan we may adopt.  
If we leave the matter  
completely to private en-  
terprise, I fear there will  
not be ~~that~~ <sup>the</sup> desirable  
uniformity in the size  
and quality of the paper  
used. No other conces-  
sion can possibly be fi-  
given to private printers.

8. It is somewhat  
strange that Patels on  
the whole get a larger  
allowance for stationery  
than Sanbogs. I do not  
think that there can be  
any doubt that a San-  
boga <sup>rule</sup> has to do a great  
deal more of writing  
than all the Patels together  
of the villages in his  
circle, some of ~~them~~

Whom do not know  
how to write at all.

~~The fact~~ The inequality  
will be removed if the  
Survey Superintendents

Suggestion about the man-  
ner of computing the Sanbog's  
Stationary allowance is a-  
dopted. In fact, this seems  
to be considered an in-  
dispensable relief by the  
Survey Superintendent.

It is also worth consi-  
dering whether the San-  
bogs sh<sup>d</sup> not be a-  
warded a higher al-  
lowance than Patels.

that, in order to grant an extra Stationery allowance to Sharn-

village accounts in the new  
forms, their Stationery  
allowance should, as  
suggested by the Supt of  
Rev. Survey, be calculated  
village war instead of  
charge war & that the  
rate of increase in the  
allowance should be  
35 p.c instead of 50 p.c as  
proposed by the Supt of  
Rev Survey. This officer  
was accordingly requested  
to revise the Stationery al-

10. The Supt of Rev Survey  
now states that what he  
proposed was that the

of 100 and the increase  
proposed to be given  
is only 35% - This  
increase has for its  
cause the increase  
of paper consumption  
& does not take into  
account the additional  
labour expended of the  
Shanlyne to do his  
work - This increase  
of 35% <sup>then</sup> is only a  
partial remuneration  
for the increased work

— Then there is also  
the <sup>existing</sup> inequality of giving  
the same amount  
or rather more to the  
Soleil than to the Shanlyne  
altho the latter had  
undoubtedly more  
work on paper than  
the former. It was  
intended that this  
anomaly should  
cease and continue

This was proposed to  
be attained by a change  
in the mode of calculation  
from charge per mile  
to charge per day.

In the above view  
of the case both the  
concessions are required

and are not excessive

The order as already  
passed may stand.

We may also adopt  
his suggestion to pay  
35% increase temporary  
for the balance till  
such time as the  
Board does otherwise  
in for revision  
under the 10 year  
rule - & supplement

pending a more permanent  
measure which should  
comprise the calculation  
of the allowance villagewar

he did not intend that  
both the measures should

thinks that the provision of  
the Patgi Settlement ordered

Result of 12 with a draft  
prepared in accordance with  
his orders.

With due reference, I  
submit that the matter  
requires reconsideration.  
By a calculation Villagosa  
the extra cost to Government  
be about 28,000 Rs. and  
this would satisfy the  
Shahdarp. No other con-  
-ception seems to have  
ever been asked for  
or recommended. As  
an alternative and as  
a temporary measure only  
the Survey Dept. suggested  
the grant of 50 percent  
in addition to the free  
rent allowance <sup>which has been calculated</sup> ~~charitable~~  
I do not think there is any  
necessity for a twofold  
conception. Not only  
would such a conception  
result in an enormous  
~~addition~~ <sup>increase</sup> to the present  
expenditure but it might  
~~also~~ also lead to

of Revenue Agency in  
Mysore.

My dear Sir,  
I have the honor to  
acknowledge the receipt  
of your letter of the  
10th inst. regarding the  
subject mentioned.

As leave, an increase of 2000  
rupees is given to both of them  
as in giving a very desirable  
measure of relief to the  
landowners who are living  
in a state of poverty. The  
fact that the Government  
has decided to increase the  
rent of a village should be  
considered as a favor to the  
landowners.

To the Revenue Agency in  
Mysore.

I think that it will  
not be prudent to permanently  
Sanction a higher  
charge for stationing  
than is now being  
really required -  
I will therefore accept  
the present accounts  
regarding stationing  
charge, subject to  
any future revision  
which may be  
found necessary after  
the Revenue of the  
Pottery Settlement (which  
is still not given

# Shantynes Sadirian allowance

Have again forethought the matter  
carefully - The facts briefly  
stated are

1. The actual consumption of paper rose from 6 to 8 2/3 lbs No 732 in other words the increase was 33. per cent. for each village adding to this the cost of labour the Sub. New Survey proposed 50% increase - (for each charge)
2. This was however a temporary arrangement applicable to those villages which were not coming for revision within the next thirty yrs.
3. To such of the villages as were not to be revised the calculation which would raise the present expenditure of 36000 to 64000 the increase of 28000 or nearly 75 per cent.
4. The question - this presented was (1) Is an increase of 75% for the whole charge sufficient to reimburse the Shantynes for the addl cost of Sadirian which alone increased 33 per cent for each village - & the additional labour involved the average number

of villages in each charge has not been ascertained, but certainly it cannot be less than three. This bare calculation shows that an increase of 75% for the whole charge is ~~at least~~ not an ~~adequate~~ remuneration.

6. Furthermore it has to be borne in mind that the rules lay down the village as a unit of calculation & that is the standard which has been adopted in the case of Patels. It is not disputed that the Patels have much less writing work requiring the consumption of paper & their writing articles. The present practice of calculating the Sadaiwari charge is ~~therefore~~ a plain violation of the standing rule with injury to the Shantogues.
7. In Bombay the unit is village.
8. My suggestions under the circumstances are
- (1) Change the practice in accordance with the ~~present~~ rules and remove the <sup>illegal</sup> source of loss & injury to Shantogues.
  - (2) The Shantogues do more work and equalize their remuneration (at least) with ~~the~~ Patels who admittedly do less.

## 2) Shanlogne's Sadulwan allowance

(3) Thirty-three per cent represents the increased cost of paper and thirty five per cent increase was proposed to meet the paper & other expenditure.

(4) There was no necessity for increasing it by 50% as the difference of 17% which was deemed as a compensation for increased labour was not an element to go into the calculation of Sadulwan allowance.

The Shanlognes in Mysore are paid less than in Bombay. While their labour is by no means less. As surplus there can be no question that their perquisites were more than the present Pongji. On the whole the Shanlognes feel universally that they are an aggrieved class and the Govt should not shut to increase the allowance to the limit <sup>pointed out</sup> <sup>in accordance with</sup> <sup>handwritten</sup> by bare justice and arithmetical calculation.

All the village <sup>with the exception of</sup> <sup>officers</sup> <sup>and</sup> Shanlognes are liberally treated, and ~~all~~ almost all the establishments of the State were

## ABSTRACT.

That since the introduction of the  
 her. also he is supplying the children  
 according to the printed forms, prescribed  
 herein - that it would cause much in-  
 convenience and delay if these forms are  
 printed and supplied at the house of each  
 person to be used, but he has to keep  
 a large number of printed forms in  
 stock which would be costly and require  
 the help of post. Praying that he may  
 obtain the printed forms by post or some  
 convenient method for his labor  
 & expense.

Sir

Enclosed  
finds  
orders with  
note 10/10/90

I beg to acknowledge the receipt  
of your office endorsement No. 10/10/90 and to  
state that the village account forms already supplied  
by us as specimens contained English and Canarese  
headings. The specimens now sent contain only Canarese  
headings. If required, English headings will also be printed  
and submitted if you can kindly allow us 15 days time  
to do so.

The cost of the forms last supplied by us  
is 2 1/2 as per quire. The cost of the forms now supplied  
is 2 as per quire.

As the new form being a big one, it has been printed  
in the form of a book and supplied at the

Rate of one anna per book.

Begging to be kindly favoured  
with early orders.

#### ABSTRACT.

State that:

The Shantappa huk is an an-  
cient one. In former times the Govt.  
which stands in the position of  
to such poor officials as to be, acc-  
to not some miras allowance to the  
consequently they depending on the  
allowance used to compile all the  
village accounts regularly and in  
due time.

According to the circular order of  
Govt. G.O. 125-22-10-72, the miras  
allowance was discontinued and a  
new form of remuneration called  
the "Potgi allowance" was allowed  
to be given to them after the Surve  
pamabandi. In the same circular

~~Mirasi~~ Potgi allowance was fixed at 4% on cultivated cultivated and 1% on waste lands, besides some allowance for stationery. Potos ~~and others~~ believed that this order would be continued for ever. In the year 1847 the Dy Commr of Chitaldroog fixed the Potgi allowance of Ramanna at Rs 55-12-0 and that of Anantappa at Rs 66-<sup>and issued orders to them</sup> per annum. This allowance was continued for some time.

3. Later the allowances mentioned in the above sanad were reduced, Ramanna's being fixed at Rs 35-12-0 and that of Anantappa at Rs 28-12-0 which is being continued up to date. Upon their asking the ground for this reduction they were told that the Potgi system would be revised once in ten years. It may be supposed that the Potgi of Shanthappa and Patel is not finally fixed, and the rules framed on their behalf are not permanent.

4. It is nearly 10 years since the old sanad was discontinued in 1885 and the revised allowance given to them. In these years Ramanna has to get Rs 200 and Anantappa Rs 77 according to <sup>the old</sup> ~~the old~~ sanad. If these allowances had been given to them they would have got on well. They ~~are~~ are now in distress as regards their maintenance. Govt seem to take no interest in their favour. <sup>that the provisions for remuneration of harigana-jendras is 1813-13-11 and the provisions for jendras is 1725-2-3</sup>

5. When the Dewan was pleased to visit Chitaldroog he was pleased to order that some annual allowance would be given to them for <sup>involved in them</sup> their additional work in preparing the "Bundera Ramane" accounts. Up to date no orders have been issued regarding this allowance.

6. Formerly they used to prepare the "Baranmane" account only. But now they have to compile the "Bundera Ramane" account <sup>as well as</sup> ~~and~~ the other accounts that may be proposed by the Dy Commr. The cost of stationery alone would amount to about 10 rupees per annum. This amount has to be met with from their Potgi since Govt gives them no help in this behalf. Though Govt were pleased to abolish the old Mirasi system, yet they have fixed no permanent form of remuneration to them.

Pray that Govt may be pleased to consider their grievances and issue final orders regarding the payment of the balance of Potgi amount to them, the new allowance promised to them and the permanent Potgi <sup>them</sup>.

*Proceedings of the Government of Mysore, Revenue, dated 19th September 1896.*

READ:

Letter No. 732, dated 3th February 1892, from the Superintendent of Revenue Survey in Mysore, submitting, as called for in this office No. (C) 981, dated 31st December 1891, proposals as to how the extra stationery allowance proposed in Government Proceedings, Camp No. 940-48, dated 29th December 1891, to be granted to shanbhogs for preparing the village accounts in the new forms prescribed by the Rules under the Land Revenue Code, should be calculated.

No. 3125-33—R. F. 53-96, DATED, BANGALORE, 19TH SEPTEMBER 1896.

ORDER THEREON.—Government concur in the view taken by the Survey Superintendent, that there can be no better way of granting to the shanbhogs the extra stationery allowance intended to be given to them for preparing the village accounts in the new forms than by revising their stationery allowance villagewar instead of chargewar; but are at the same time of opinion that the rate of increase in the allowance should be 35 per cent instead of 50 per cent as proposed by the Survey Superintendent, considering the additional advantage gained by calculating it villagewar. After the revision of the allowance is effected as above, the Deputy Commissioners will be informed of the cost of obtaining printed forms of the village accounts, and instructed to use their influence in getting the forms utilized by the shanbhogs.

2. The attention of the Survey Superintendent is invited to Government Order No. 2477-85—R. 908, dated 3rd September 1896, directing the revision of the potgi settlement in taluks in which such settlement was made more than ten years ago, with a request that he will take this opportunity of revising also the stationery allowance of the shanbhogs on the lines indicated above.

Sir,

I have the honor to ac-

No. 3125-33 dated 19<sup>th</sup> September  
R. 7. 53-96  
1896 on the subject of revising  
the Stationery allowance to  
Shanbogs.

2 I am constrained to  
submit this question for  
more definite ruling. The  
Order now under reply lays  
down, apparently, that the  
Stationery allowance is to  
be calculated village-war  
and not charge-war (on  
the present existing scale  
it is presumed) and, apparent-  
ly, in addition to this the  
increase of allowance is to

allowance should be calculated Villagewar as in the case of similar allowance to Patels, and that in taking the Patgi settlement whereof is not due, or likely to be completed within 3 years, the present stationery allowance to Shambhooes shall be increased by 35 p.c.

Government ob.  
serve that in para 2 of his letter No. 732 dated 5<sup>th</sup> February 1892, the Superintendent of Revenue & Survey has shown that in a village containing

only - was the calculation of the allowance to be made Village - was but that there was also an increase of 35 per cent to be allowed.

4 Considering that the revision of the Potgi settlement as directed in Govt. Order No. 2477-35 dated 3rd <sup>(14)</sup> September 1896 is now put in hand it will, in my opinion, be quite sufficient to rule that the Shanbag's Stationary allowance be calculated

=culated village-war instead  
of chadegwar no mention what=  
=ever being made of any  
percentage of increase which  
latter can only apply to  
existing Potgi Settlements.

5<sup>P</sup> I propose therefore  
that the ruling should be  
as follows.

In all future revisions  
of Potgi Settlement the

Village-war as in the case  
of similar allowances  
to

100 Survey numbers, the  
increase of stationery allow-  
ance on account of extra (42)  
paper required for pre-  
paring the accounts in  
the new forms is 33 p.c.

This is an average village  
and there are many  
villages which contain  
more than this average  
number of 100 Survey  
numbers. The increase  
proposed to be given how-  
ever ~~on this account~~ is only 35 p.c. and  
includes but a small  
remuneration for the  
increased labour. Indeed,  
in many cases, it does  
not take any account at  
all of the additional labour  
imposed upon the Shamboques  
in writing up the addition-  
al accounts. The basis  
of calculation being the

READ AGAIN:—

Proceedings of Government No. 3125-33—R. F. 53-96, dated 19th September 1896, directing that in order to grant extra stationery allowance to shanbhogs for preparing the village accounts in the new forms, their stationery allowance be calculated villagewar instead of chargewar, the rate of increase in the allowance being fixed at 35 per cent instead of at 50 per cent, as proposed by the Superintendent of Revenue Survey.

Also:—

Letter No. 327, dated 25th November, 1896, from the Superintendent of Revenue Survey, stating, with reference to the aforesaid proceedings, that it was not his proposal that the calculation of the allowance villagewar and the grant of increase should take effect together; that what he proposed was that the existing stationery allowance should, as a temporary measure, be increased about 50 per cent pending a more permanent measure which should comprise the calculation of the allowance villagewar instead of chargewar; and suggesting therefore that a rule be laid down to the effect that in all future revisions of Potgi settlement, the shanbhogs' stationery allowance should be calculated villagewar as in the case of similar allowance to patels, and that in taluks, the Potgi settlement whereof is not due, or likely to be completed within three years, the present stationery allowance to shanbhogs shall be increased by 35 per cent.

Also:—

Letter No. 433, dated 7th January 1897, from the same Officer.

No. 673-81—R. F. 53-96 DATED, BANGALORE, 21ST JULY 1897.

ORDER THEREON.—Government observe that in para 2 of his letter No. 732, dated 5th February 1897, the Superintendent of Revenue Survey has shown that in a village containing 100 survey numbers, the increase of stationery allowance on account of extra paper required for preparing the accounts in the new forms is 33 per cent. This is an average village, and there are many villages which contain more than this average number of 100 survey numbers. The increase proposed to be given, however, is only 35 per cent and includes but a small remuneration for the increased labor. Indeed, in many cases, it does not take any account at all of the additional labor imposed upon the shanbhogs in writing up the additional accounts. The basis of calculation being the cost of paper, and the unit of the paper consumption being a village, it is hard to defend on any intelligible principles the clubbing of the sadilwar allowances for a number of villages; and it is on these grounds that the proposal has been now sanctioned for computing this allowance according to the requirements of each of the villages comprised in a shanbhog's charge.

But it is believed that the sadilwar allowance calculated at the same rate as that of shanbhogs was granted to patels. The calculation, however, having been made villagewar in their case, the allowances of patels were larger than those of shanbhogs; and the change of treatment now sanctioned had for its object the unification of the method adopted and the removal of the anomaly above pointed out. Having regard to the quantity of writing work turned out by the patels and the shanbhogs, and especially after the introduction of the new forms of accounts entailing much additional labor and time on the part of the shanbhogs, there can be no doubt that the latter do a great deal more writing work than the former.

The adoption of the same rate of allowance for both cannot, under the circumstances, but be arbitrary and unequal.

There is no reason to continue such an apparent and glaring inconsistency, and the Government were guided by this consideration in sanctioning the increased rate. Before, however, making the order final, the Government will be glad if the Superintendent of Survey will consider these views as above set forth and make any further representation which he may wish to make. When doing so, he will also favor the Government with information of the aggregate cost to Government according to each of the methods suggested above.

In the meanwhile, the Government direct that in all taluks, the Potgi settlement of which is not due, or likely to be completed within three years, the present stationery allowance to shanbhogs be increased 35 per cent and statements furnished by the Survey Superintendent accordingly. This increase may be granted separately and temporarily for the sadilwar till such time as the present Potgi does not come in for revision under the 10-Year Rule.

Sir,

I have the honor to acknowledge receipt of Government Proceedings and Order of 273-81 dated 21<sup>st</sup> July 1894 on the subject of increasing the Stationary allowance to Sahibgajs as discussed in Government Proceedings of 3123-30 dated 19<sup>th</sup> September 1896.

2

The Order of 21<sup>st</sup> July 1894, above quoted, decides the question of increasing the present

the Stationery allowance to Shambhoo  
and giving some information about  
Patel's allowance as until their decision  
is received the revision of the Potgi  
Settlement directed in the above is at  
a stand-still.

(116)

visit is paid the village. These  
duties and expenses do not  
strictly come under the head  
of Sadilwar but I have no  
doubt that when the scale  
was originally fixed by  
Sir George Wingate in the  
early days of the Bombay  
Survey these points were  
duly considered. I think  
I may say also that the  
Patels, to use their own ex-  
pression, have more clusters  
in the shape of various De-  
partments than they used to  
have. Allowing that the  
Stationary allowance calculated  
ad Village-war is sufficient  
for

for the Shambags, as I certainly  
think it is, I would not  
reduce the Patel's allowance  
simply because he does not  
use so much paper. A Patel  
in charge, usually has but  
one village. 34 Taluks are  
concerned in this part of the  
present Government Order,  
their revision being due.

5 As regards cost. The  
re-calculation of the Shambags  
allowances Village-war, instead  
of Charge-war, in 34 Taluks,  
will cause an expenditure of  
Rs 13249. 8. 0 more than at  
present. The increase by 35  
per

percent. in 23 Taluks, not yet  
due for revision, of the Shambag  
allowances will cost Rs 6013.

The total immediate extra cost  
will thus be, on original re-  
venue, Rs 19,262.3.0

6. When the whole Province  
comes to be settled on the new  
scale of Stationary allowance  
Vilagware to Shambag the  
cost will according to my  
estimate be about Rs 23,000  
more than it would have been  
had no change in the applica-  
tion of the scale been made.  
To put it more clearly the  
Stationary allowance to Shambag  
which under present rules  
and scale would be only about  
Rs

has actually been  
settled.

2. As regards the Taluk  
the Potgi Settlement of which  
is not due, or is not likely  
to be completed within  
3 years, the Shanbogue's  
present Stationery allow-  
-ance will, as already  
directed, be increased 35  
per cent temporarily till  
such time as the present  
Potgi Settlement ~~does~~  
~~not come in for revision~~  
~~under the ten year rule~~  
~~and statements furnished~~  
~~by the Supt of Rev Survey~~  
~~accordingly.~~ 4

READ:—

Correspondence ending with docket No. 375, dated 2nd December 1897, from the Superintendent of Revenue Survey in Mysore, requesting the early issue of final orders on his suggestion re the calculation of the shanbhog's stationary allowance villagewar, instead of chargewar as at present, in those taluks in which the potgi settlement is ripe for revision, it having been already decided to increase such allowance temporarily by 35 per cent in those taluks where the potgi settlement is not due or is not likely to be completed within three years.

No. 7644-53—R. F. 53-96, DATED BANGALORE, 12TH FEBRUARY 1898.

ORDER THEREON.—On a further and fuller consideration of the question, Government accept the recommendation of the Superintendent of Revenue Survey and accordingly direct, in modification of the orders conveyed in Government Proceedings Nos. 3125-33—R. F. 53-96, dated 19th September 1896, and 873-81—R. F. 53-96, dated 21st July 1897, that the shanbhog's stationary allowance be calculated *villagewar* as in the case of similar allowance to patels, subject to any future revision which may be found necessary after the revision of the potgi settlement (which in itself would give much increased remuneration) has actually been settled.

2. As regards those taluks, the potgi settlement of which is not due, or is not likely to be completed within three years, the shanbhog's present stationary allowance will, as already directed, be increased 35 per cent temporarily till the revision of the present potgi settlement.

C. SREENIVASIENGAR,  
*Secy. to Govt., Gen. & Rev. Depts.*
